MESSIAH 2030: THE FIRST CHECKPOINT

Part 4's dates, updated to November 6, 2026. Still open on the calendar; it closes March 28, 2027.

Biblical days run evening to evening.
Part 4's calendar unless marked.
Gold circles mark events; gold bars mark day counts.

HOW THE FIVE PAGES FIT: TWO CHECKPOINTS, IN ORDER

1 NOW — STATUS: PAGE 3
Nov 6, 2026. No daily offering; police stopped every attempt in 2026. Herzog names who tries first on Nov 8.

→

2 CHECKPOINT 1 — THIS PAGE
Mar 21 to 28, 2027. An offering running by Part 4's Passover, then taken away at Firstfruits.
If met: return at Yom Teruah 2030.

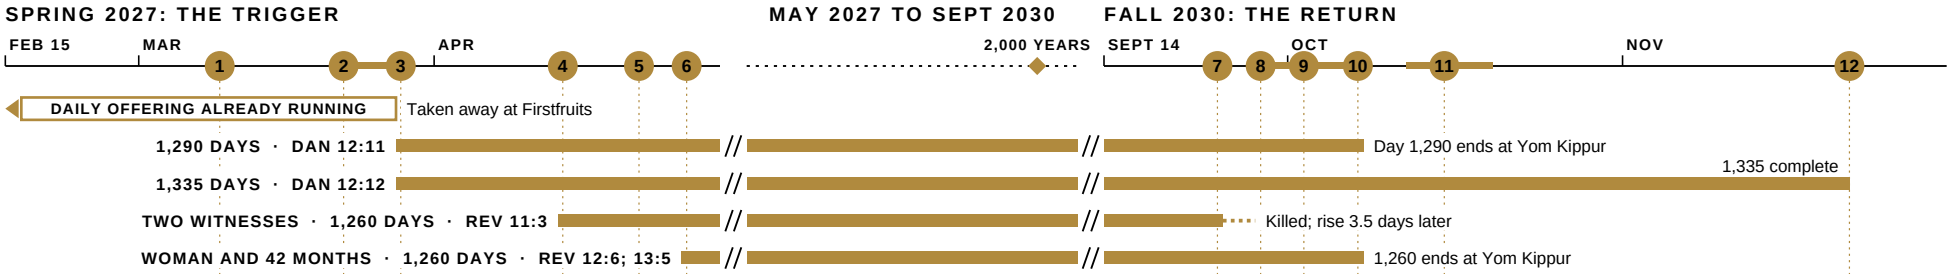

IF NOT →

3 CHECKPOINT 2 — PAGES 2 AND 3
Mar 23 to 24, 2030. The same test three years later, on the AD 33 anchor. **If met:** return at Yom Teruah 2033.

IF NOT →

4 IF NEITHER IS MET — PAGE 4
After March 2030. Both dated schedules fail on their own terms. The order of events Scripture gives still stands.

THE FINAL HALF-WEEK AS PART 4 PLACES IT (DANIEL 12, REVELATION 11 TO 13)

1. **Mar 8 to 9 · 1 Nisan by the March new moon.** Part 4's month 1 opens the evening after the conjunction (Mar 8, 09:29 UT). Standard calendar: 30 Adar I.
2. **Mar 21 to 22 · Passover (Part 4).** Sacrificial service restored: Part 4's expectation; Scripture gives no date.
3. **Mar 27 to 28 · Firstfruits (Sunday).** Daily offering taken away, abomination set up (Dan 12:11; Matt 24:15). The 1,290 and 1,335 begin. Judea flees.
4. **Apr 13 to 14 · Two witnesses begin** 1,260 days in sackcloth, counted back from Yom Teruah 2030 (Rev 11:3).
5. **Apr 21 to 22 · Standard Jewish Passover.** Too late to start the offering on this schedule.
6. **Apr 26 to 27 · The woman flees;** her 1,260 days and the beast's 42 months begin, 30 days after the abomination (Rev 12:6; 13:5).

About 3.5 years. Trumpets 1 to 6 sound, dates not given. The beast holds 42 months and enforces the mark: no buying or selling without it (Rev 13:16-17). The witnesses testify; the woman is nourished in the wilderness. **Spring 2030:** 2,000 years from the cross on the AD 30 anchor.

7. **Sept 23 to 24 · Witnesses' testimony ends;** the beast kills them; they lie in the street 3.5 days (Rev 11:7-9).
8. **Sept 27 to 28 · Yom Teruah, a Sabbath.** Seventh trumpet: Messiah appears; the witnesses and the dead rise; the living are changed and gathered (Rev 11:11-15; 1 Cor 15:52). The reign begins.
9. **Sept 28 to Oct 7 · Days of Awe.** Seven bowls of wrath (Rev 16).
10. **Oct 6 to 7 · Yom Kippur.** Wrath complete; beast and false prophet destroyed. Day 1,290; the woman's 1,260 complete.
11. **Oct 11 to 19 · Sukkot and Shemini Atzeret.** The first kingdom feast (Zech 14:16).
12. **Nov 20 to 21 · Day 1,335:** "Blessed is he that waiteth" (Dan 12:12).

CHECKPOINTS FOR THE 2030 DATE

- ☐ **Nov 8, 2026:** Herzog names who tries first; 67 MKs recommended Eisenkot, 46 Netanyahu. **Dec 6 to 20:** first coalition deadline.
- ☐ **By Mar 21 to 22, 2027:** a regular daily offering on the Temple Mount. **Status:** none; police stopped every attempt at Passover and Shavuot 2026.
- ☐ **Mar 27 to 28:** the offering stopped and an abomination set up in the holy place (Dan 12:11; Matt 24:15; 2 Thess 2:4).
- ☐ **From Apr 2027:** two witnesses in Jerusalem (Rev 11:3-6); buying and selling tied to the beast's mark (Rev 13:16-17).
- ☐ **Sept 27 to 28, 2030:** Yom Teruah; **Oct 6 to 7:** Yom Kippur; **Nov 20 to 21:** day 1,335.

If Mar 28, 2027 passes with no offering stopped, the 2030 schedule fails on its own terms. **Turn to page 2.**

IS IT STILL POSSIBLE?

- **On the calendar, yes.** No date in Part 4's schedule has passed, and its counts check out: 1,290, 1,335 and 1,260 days, a 30-day offset and a 45-day extension.
- **In practice, very unlikely.** All ten steps on page 3 would have to happen in the 135 days to Part 4's Passover. One is ready (priests and vessels), three are partly done, six have not begun.
- **The wrong Passover.** The groups that attempt sacrifice keep the standard Jewish calendar. 5787 is a leap year, so their Passover falls Apr 21 to 22, more than three weeks after Part 4's trigger.
- **The government.** An Eisenkot government would likely close the door. If no one forms one, a second election falls about late March to May 2027, with Netanyahu and Ben Gvir staying on as caretakers.
- **Rough odds:** well under 1 in 100 (page 4).

KEEP IN VIEW

- **AD 30 or AD 33?** Both give a Friday 14 Nisan (Apr 7, AD 30; Apr 3, AD 33), and scholars are split. The series argues for AD 30 from the Talmud's "forty years" before the Temple fell (Yoma 39b). Pages 2 to 5 follow AD 33.
- **Calendar.** Part 4 opens each month the evening after the new moon. On a sighted-crescent calendar Yom Teruah 2030 moves to Sept 29 or 30 and Yom Kippur to Oct 8 or 9.
- **If spring 2027 passes,** the order of events stays; the dates move three years, to the AD 33 anchor.
- **Matthew 25:13:** "ye know neither the day nor the hour." Hold the sequence; test the dates.

MESSIAH 2033: EVENTS AND CHECKPOINTS

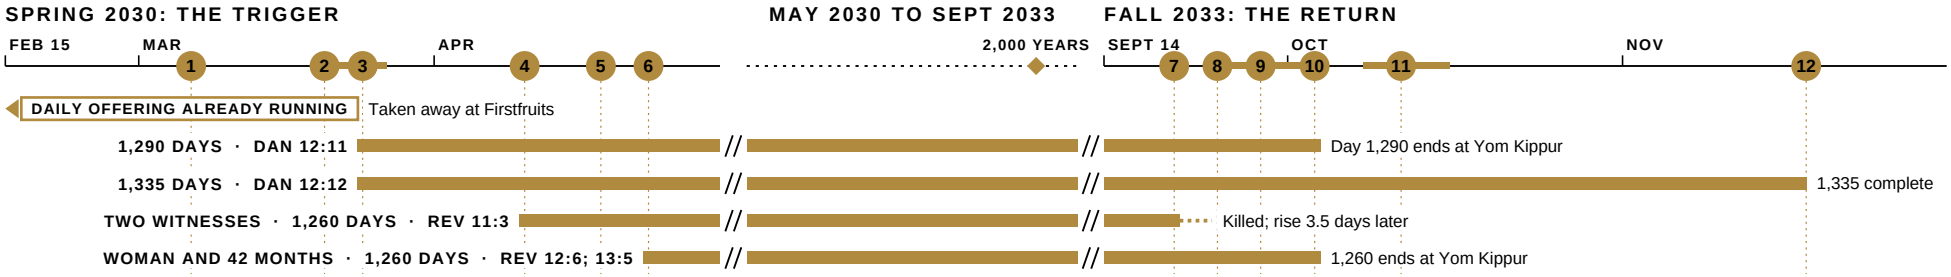

If spring 2027 passes (page 1): cross in AD 33, return checkpoint at Yom Teruah 2033, altar needed by March 23, 2030.

Biblical days run evening to evening.
Standard Jewish calendar unless marked.
Gold circles mark events; gold bars mark day counts.

THE FRAMEWORK: SEVEN PROPHETIC DAYS, THEN THE EIGHTH

DAY 1	DAY 2	DAY 3	DAY 4	DAY 5	DAY 6	DAY 7	DAY 8
Creation week read as 7,000 years (Barnabas, Irenaeus, 2 Peter 3:8). Creation dates disagree, so this sheet counts from the cross: year 6,000 falls about 1997 (Ussher), 2075 (Bevere) or 2240 (Jewish count).			**The cross, AD 33.** First half-week: fall AD 29 to Friday, April 3, AD 33.	**Two days** = 2,000 years (Hosea 6:2), counted from the cross in AD 33 to 2033.		**2033: 2,000 years from the cross.** The millennium begins (Rev 20:4-6).	**Eternity:** new heavens, new earth, New Jerusalem.

THE FINAL HALF-WEEK ON THE AD 33 ANCHOR (DANIEL 12, REVELATION 11 TO 13)

1. **Mar 5 to 6 · 1 Nisan by the March new moon.** Tabernacle day (Exod 40:17; 2 Chr 29:17). Latest fitting start for the offering. Standard calendar: 1 Adar II.
2. **Mar 19 to 20 · Passover by the same moon.** Lambs slain on the eve of the Mar 20 equinox; calendars that require spring first reject this month.
3. **Mar 23 to 24 · Firstfruits (Sunday).** Daily offering taken away, abomination set up (Dan 12:11; Matt 24:15). The 1,290 and 1,335 begin. Judea flees.
4. **Apr 9 to 10 · Two witnesses begin** 1,260 days in sackcloth, counted back from Yom Teruah 2033 (Rev 11:3).
5. **Apr 17 to 18 · Standard Jewish Passover.** Too late to start the offering on this schedule.
6. **Apr 22 to 23 · The woman flees;** her 1,260 days and the beast's 42 months begin, 30 days after the abomination (Rev 12:6; 13:5).

About 3.5 years. Trumpets 1 to 6 sound, dates not given. The beast holds 42 months and enforces the mark: no buying or selling without it (Rev 13:16-17). The witnesses testify; the woman is nourished in the wilderness. **Apr 13 to 17, 2033:** Passover to Easter, 2,000 years from the cross.

7. **Sept 19 to 20 · Witnesses' testimony ends;** the beast kills them; they lie in the street 3.5 days (Rev 11:7-9).
8. **Sept 23 to 24 · Yom Teruah, a Sabbath.** Seventh trumpet: Messiah appears; the witnesses and the dead rise; the living are changed and gathered (Rev 11:11-15; 1 Cor 15:52). The reign begins.
9. **Sept 24 to Oct 3 · Days of Awe.** Seven bowls of wrath (Rev 16).
10. **Oct 2 to 3 · Yom Kippur.** Wrath complete; beast and false prophet destroyed. Day 1,290; the woman's 1,260 complete.
11. **Oct 7 to 15 · Sukkot and Shemini Atzeret.** The first kingdom feast (Zech 14:16).
12. **Nov 16 to 17 · Day 1,335:** "Blessed is he that waiteth" (Dan 12:12).

CHECKPOINTS FOR THE 2033 DATE

- ☐ **Before sunset, Mar 23, 2030:** a regular daily offering on the Temple Mount. **Status:** none. Police stopped every attempt at Passover and Shavuot 2026. Page 3 lists what must change.
- ☐ **Mar 23 to 24, 2030:** the offering stopped and an abomination set up in the holy place (Dan 12:11; Matt 24:15; 2 Thess 2:4).
- ☐ **Apr 9 to 10, 2030:** two witnesses begin public testimony in Jerusalem (Rev 11:3-6).
- ☐ **2030 to 2033:** buying and selling tied to the beast's mark (Rev 13:16-17).
- ☐ **Sept 23 to 24, 2033:** Yom Teruah; **Oct 2 to 3:** Yom Kippur; **Nov 16 to 17:** the 1,335 days complete.

If spring 2030 passes without the first two, the 2033 schedule fails on its own terms.

WHY AD 33, AND WHAT COULD MOVE IT

THE ANCHOR

- **Friday, Apr 3, AD 33** fits 14 Nisan by astronomy; Sunday, Apr 5 is the resurrection; Pentecost is Sunday, May 24.
- **Hoehner:** 173,880 days of 360-day years from Nisan 444 BC end Mar 30, AD 33 (Dan 9:25).
- **Rome** is preparing a 2033 Jubilee of the Redemption, 2,000 years from the cross.

WHAT COULD MOVE IT

Pre-trib reading: rapture about 2033, return about 2040; the altar deadline moves to about 2037.

Seven-year week ending 2033: needed a covenant "with many" about fall 2026 (Dan 9:27). None fits yet.

Sighted-crescent calendar: Yom Teruah moves to Sept 25 or 26, Yom Kippur to Oct 4 or 5.

KEEP IN VIEW

- **No dated return has held** (1844, 1988, 2011, 2025). Treat these dates as checkpoints to test, not a countdown.
- **The March 24 start** uses the March new moon, the method Part 4 used for 2027. On the standard Jewish calendar 5790 is a leap year and Passover falls Apr 17 to 18, after the trigger.
- **Sabbath Yom Teruah.** Rosh Hashanah 2033 falls on a Saturday, and synagogues do not sound the shofar on a Sabbath (Mishnah Rosh Hashanah 4:1).
- **Matthew 24:36:** "of that day and hour knoweth no man." Hold the sequence; test the dates.

Sources: Dan 9:24-27; 12:11-13; Rev 11 to 13; Matt 24; Hosea 6:2. Dates computed on the standard Jewish (Hillel II) calendar, with new moons and crescent checks for Jerusalem; counts are inclusive.
Hoehner, Chronological Aspects of the Life of Christ (1977). Spes non confundit (2024), section 6. Counting structure follows Messiah 2030 Part 4 (Sept 8, 2026), moved to the AD 33 anchor.

THE ROAD TO THE ALTAR

Ten things that must happen before an offering on the Temple Mount, and the war and government checkpoints to watch.

Gold circles: windows for a first offering.
Black squares: political dates.
Boxes stay open until the event happens.

STATIONS TO THE DEADLINE, IN ORDER (NOT TO SCALE)

- **NOV 6** — Now. Caretaker PM; mandate due by Nov 8.
- **DEC 6 TO 20** — First coalition deadline (28 days, plus up to 14).
- **MAR TO MAY** — Second election if no one forms a government.
- **APR 21** — Passover: the next annual sacrifice attempt.
- **APR 10** — Passover.
- **NOV 7** — US election; new term begins Jan 20, 2029.
- **MAR 30** — Passover: the last standard-calendar one that fits.
- **SEPT 10** — Yom Teruah. Ezra's altar came first (Ezra 3:6).
- **DEC 2** — Hanukkah. The altar rededicated (1 Macc 4:52).
- **MAR 5 TO 6** — 1 Nisan by the March new moon (Exod 40:17).
- **MAR 23** — **DEADLINE: offering running by sunset.**
- **MAR 24** — Day 1 of the 1,290 (page 2).

TEN THINGS THAT MUST HAPPEN FIRST, IN ORDER · STATUS NOVEMBER 6, 2026

■ ready ◧ partly ☐ not yet

1 A WILLING GOVERNMENT ☐
The prime minister and security cabinet must sign off. Now: caretaker; 67 MKs back Eisenkot, 46 Netanyahu.

2 POLICE ORDERS ☐
The National Security Ministry directs the police. Ben Gvir holds it for now; police still stop every goat.

3 PRAYER MADE NORMAL ◧
Prayer sheets allowed Jan 21, 2026; prayer books Aug 16. At Sukkot police still removed five for the Four Species blessing.

4 LEGAL COVER ☐
Courts have long upheld police power to bar Jewish prayer. A law or a ruling has to change that.

5 JORDAN AND THE WAQF ☐
1994 treaty, Art. 9. A reported US-Israel plan would replace the Waqf; Amman calls it a red line.

6 A RABBINIC RULING ☐
The Chief Rabbinate bars entry; Haredi parties object. A recognized body must rule on site and purity.

7 PURITY ◧
No valid red heifer ashes; four heifers at Shiloh under review. Or a ruling that public offerings go ahead in impurity.

8 PRIESTS AND VESSELS ■
Kohanim trained; garments and vessels made by the Temple Institute.

9 ALTAR AND SITE ◧
Practice altars exist off the Mount. The exact altar spot is still disputed.

10 THE FIRST OFFERING ☐
A Passover lamb or the daily tamid, running before sunset, Mar 23, 2030.

ISRAELI GOVERNMENT AND WASHINGTON

- ☐ **By Nov 8, 2026:** Herzog names who tries first. 67 MKs recommended Eisenkot, 46 Netanyahu; a Haredi faction broke with Netanyahu over the draft law.
- ☐ **Nov 10:** the 26th Knesset is sworn in. Netanyahu stays caretaker, and Ben Gvir keeps the police ministry, until a government forms.
- ☐ **About Dec 6 (Dec 20 with extension):** first coalition deadline. Eisenkot rules out Arab-led parties as partners; his government would likely close the door. In 2024 he pushed to strip Ben Gvir of Temple Mount authority.
- ☐ **Late March to May 2027:** a second election if no one forms a government. A Netanyahu win with Otzma Yehudit reopens the path.
- ☐ **Signal to watch:** the prime minister's office stops answering each Temple Mount step with "the status quo on the Temple Mount has not changed."
- ☐ **Nov 7, 2028 and Jan 20, 2029:** US election and inauguration; the 22nd Amendment bars a third election. Middle East Eye says Kushner and Ambassador Huckabee champion the plan to replace the Waqf.
- ☐ **Oct 29, 2030:** next regular Knesset election (5790 is a leap year, so the first Tuesday of Heshvan). It falls after the deadline: only a government formed now, or after a snap election, could approve an altar in time.

WARS AND THE REGION

- ☐ **Iran, since Feb 28, 2026:** the Apr 8 ceasefire broke down and fighting resumed Jul 8; a US blockade holds and Hormuz is shut. Doha talks ended Nov 1 with a draft; the US struck Qeshm Island Nov 2. Watch for a deal or a wider US campaign.
- ☐ **Lebanon, since Mar 2:** ceasefires Apr 16 and Jun 1; Israel holds about 6% of Lebanon; talks in Washington on borders and a peace deal.
- ☐ **Gaza:** ceasefire since Oct 10, 2025. UN Resolution 2803 made a Board of Peace, chaired by the US president, Gaza's transitional authority through 2027, with a stabilization force under a US general. Israel holds at least 65% of the Strip.
- ☐ **Syria:** Israel has held Hermon's summit and the buffer zone since Dec 8, 2024, and says it will stay indefinitely.
- ☐ **Yemen:** the Houthis declared a naval blockade of Saudi Arabia on Jul 20, 2026.
- ☐ **Russia:** the Ukraine war is in its fifth year; US, Russian and Ukrainian talks are set for Abu Dhabi around Nov 10. Kyiv sees no ceasefire before spring 2027.
- ☐ **Saudi Arabia:** still requires steps toward a Palestinian state before ties with Israel (May 26, 2026).
- ☐ **Gog and Magog (Ezek 38 to 39):** the invasion comes when Israel "dwells safely" (38:8, 11). Not met while every front is active.

THREE WAYS IT COULD HAPPEN

- **A** **By ballot.** A government that backs it with police, cabinet and courts: Netanyahu's bloc, with Otzma Yehudit, in power before 2030.
- **B** **By deal.** A US-brokered arrangement that replaces the Waqf and opens the Mount to Jewish worship (reported May 25, 2026). Some read such a deal as Dan 9:27's covenant.
- **C** **By war.** A war or a crisis in Jordan that changes who controls the Mount, as 1967 did.

WATCH: FOREIGN AUTHORITY

- ☐ Board of Peace mandate renewed past 2027, or widened beyond Gaza.
- ☐ Any foreign or international authority over Jerusalem or the Temple Mount.
- ☐ Foreign troops or administrators inside Jerusalem itself.

FAIL POINT. No offering on the Mount by sunset, Mar 23, 2030: the post-tribulation 2033 schedule fails on its own terms.

WHAT THE TEXT SETTLES

What Scripture states, what it leaves open, and what each question does to the 2033 dates.

Scripture quotations are KJV.
Rough odds are judgments, not calculations.
Gold marks the model's own dates.

THE ORDER SCRIPTURE GIVES

1 ABOMINATION
Offering taken away; abomination set up.
Dan 12:11; Matt 24:15; 2 Thess 2:4
MAR 24, 2030

2 FLIGHT
Those in Judea flee to the mountains.
Matt 24:16-20; Rev 12:6, 14

3 GREAT TRIBULATION
42 months of the beast; false christs: "believe it not."
Matt 24:21-26; Rev 13:5

4 SIGNS IN THE SKY
Sun and moon darkened; stars fall.
Matt 24:29; Rev 6:12-13

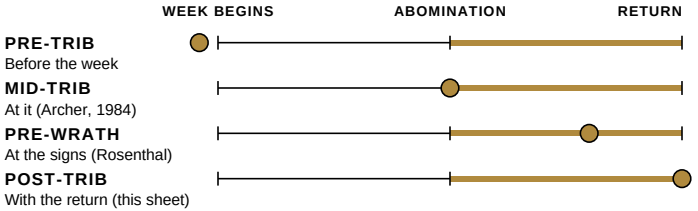

5 THE APPEARING
Sign of the Son of Man; trumpet; the elect gathered.
Matt 24:30-31; 1 Cor 15:52
SEPT 23 TO 24, 2033

6 BEAST DESTROYED
By the brightness of his coming.
2 Thess 2:8; Rev 19:20; Dan 7:26
BY OCT 2 TO 3, 2033

Daniel counts 1,290 days from step 1 to the end, and blesses whoever reaches 1,335 (Dan 12:11-12).

Stated plainly: this order; a final span of three and a half years (Dan 7:25; 12:7; Rev 11:2-3; 12:6, 14; 13:5); and that the return comes after the tribulation. **Not stated:** a calendar date; a seven-year tribulation (the only seven-year unit is the single week of Dan 9:27); or when the rapture falls, which is inferred. The day and hour are withheld (Matt 24:36; Acts 1:7). Yom Teruah comes from the feast pattern, not from a verse.

WHERE EACH VIEW PUTS THE GATHERING

Preterist: the abomination was Rome's siege (Luke 21:20), AD 66 to 70; the "coming" was judgment on Jerusalem in AD 70 (N.T. Wright reads it as vindication).

Split-week model (this sheet): the first half was Christ's ministry, AD 29 to 33; only the gold half remains, spring 2030 to fall 2033. **No view puts the visible return at the abomination;** Matt 24:23-27 warns against anyone who says Christ is already here.

IS DANIEL'S 70TH WEEK SPLIT?

A defensible model, not a stated fact.

FOR

- Every end-time span is three and a half years; Scripture never describes a seven-year tribulation.
- Jesus' ministry ran about three and a half years, and he was "cut off" (Dan 9:26) at its end.
- "Confirm the covenant with many" (Dan 9:27) echoes "shed for many" (Matt 26:28).
- Prophecy can pause mid-passage: Jesus stops reading Isaiah 61:2 before "the day of vengeance" (Luke 4:18-21).
- Jesus still spoke of Daniel's abomination as future (Matt 24:15).

AGAINST

- Daniel 9 gives no sign of a pause; the split needs a gap as much as the seven-year view does.
- The sacrifices end twice: in principle at the cross (Heb 10:18), in fact at the end.
- The nearest "he" in 9:27 is "the prince that shall come" (9:26).
- A three-and-a-half-year ministry assumes a fourth Passover (John 5:1) or a fall baptism.
- Hippolytus (about AD 200) put the whole last week at the end, with the gap after week 69.

The 2033 dates do not depend on the split. They rest on 2,000 years from AD 33 and Daniel 12's 1,290 days.

DO CALENDAR CHANGES MOVE THE DATES?

ISSUE	WHAT IT DOES	MOVES 2033?
Julian to Gregorian (1582)	Dropped 10 days, kept the year numbers. The cross, Apr 3, AD 33 (Julian), is Apr 1 today; the two calendars are 13 days apart by 2033.	**No.** The model runs on feasts, not fixed dates.
No year zero	1 BC is followed directly by AD 1.	**No.** AD 33 to 2033 is exactly 2,000 years.
AD numbering (AD 525)	Likely misses Jesus' birth by a few years.	**No.** The cross is dated directly.
Jewish year count	Seder Olam leaves out about 165 Persian-era years. Year 6,000: 2239 to 2240 on that count; about 2075 corrected (Bevere's 3925 BC); about 1997 (Ussher).	**Only** for models counted from creation.
Feast calendar	The calculated calendar (fixed about AD 359) versus sighted moons: 1 to 2 days. Leap-month placement: a whole month.	**Yes.** Trigger Mar 24 or Apr 21, 2030; Yom Teruah Sept 24 or 25 to 26, 2033.
360-day years	Two thousand such years from AD 33 would end in July 2004.	**No.** The sheet counts days directly.

A failed 2025 rapture date was pushed back 13 days by appeal to the Julian calendar. The switch relabeled days; it did not lose any time.

WHO ELSE NAMES THESE YEARS?

- **2033 as a milestone:** Rome's Jubilee of the Redemption; Rick Warren's Finishing the Task aims to complete the Great Commission by Pentecost, June 5, 2033. Neither sets a return date.
- **2033 as a return date:** Don Koenig's prophecy site calls it the statistically likeliest year; a 2019 self-published book; a reported LDS letter (secondhand).
- **2037:** a 70-year generation from 1967. The method failed before: Chuck Smith's 1981 (1948 plus 40, minus 7), and the 70-year count from 1948 ran out in 2018.
- **2040:** 2033 plus seven, the pre-trib arithmetic.
- **Nearby:** Newton, no earlier than 2060; Bevere, before 2075. No academic scholar dates the return.

HOW LIKELY? (ROUGH JUDGMENT)

Sacrifices by late March 2027 (the 2030 schedule, page 1): well under 1 in 100.

Sacrifices by Mar 23, 2030 (the 2033 schedule): roughly 1 in 25; it rides on who governs Israel.

A return on Yom Teruah 2033: beyond odds. No dated return has held: 1844, 1988, 2011, 2025.

THE ANTIOCHUS PATTERN

How Daniel's first desecrator previews the last, the tests any candidate must meet, and who holds authority today.

STATUS AS OF NOVEMBER 6, 2026

This sheet names no living person as either figure.
The same tests apply to anyone.
Boxes stay open until the act happens.

FROM TYPE TO ANTITYPE: THE LINE OF DESECRATORS (NOT TO SCALE)

TYPE AND ANTITYPE

- **Antiochus IV** is the king behind Daniel 8 and Daniel 11:21-35. Christians have long read him as a type: a preview the last figure repeats on a larger scale.
- **Daniel 11:36-45** moves to a king who exalts himself above every god and lasts until "the time of the end." He enters "the glorious land" and plants his palace "between the seas in the glorious holy mountain" (11:41, 45).
- **Jesus,** nearly 200 years after Antiochus, still spoke of the abomination as future (Matt 24:15). **Paul** describes the man of sin in Daniel's words (2 Thess 2:4; Dan 11:36). **John:** "even now are there many antichrists" (1 John 2:18).
- **Jerome** (about AD 407): as Solomon and the saints prefigured Christ, Antiochus, who persecuted the saints and defiled the Temple, prefigured the Antichrist.
- **In this model there is no slot for a separate Antiochus.** Whoever stops the offering, on Mar 28, 2027 (page 1) or Mar 24, 2030 (page 2), starts the 1,290 days and is destroyed at Christ's coming (Dan 7:26; 2 Thess 2:8; Rev 19:20).

SIX TESTS FOR ANY CANDIDATE

HOW HE RISES (MANY RULERS FIT THESE)

- ☐ **1.** Takes a throne not his, "by flatteries" (Dan 11:21).
- ☐ **2.** Makes a league, then works deceitfully (11:23).
- ☐ **3.** Wins insiders who forsake the covenant (11:30, 32).

WHAT MAKES HIM ANTIOCHUS (NONE HAS HAPPENED)

- ☐ **4.** Gains authority over the holy city and the sanctuary.
- ☐ **5.** Stops the daily offering and sets up the abomination (11:31; 12:11). Model dates: Mar 28, 2027 or Mar 24, 2030.
- ☐ **6.** Exalts himself above every god, demands worship and persecutes the faithful (11:36; 2 Thess 2:4; Rev 13:15).

WHO HOLDS AUTHORITY NOW

- **Gaza:** UN Resolution 2803 (Nov 17, 2025) made a Board of Peace Gaza's transitional authority through 2027. The US president chairs it; a US general commands its stabilization force. Its charter now reaches beyond Gaza. Israel holds at least 65% of the Strip.
- **Jerusalem and the Temple Mount:** Israel governs and its police control access; the Jordanian-backed Waqf runs the compound (1994 treaty, Art. 9). Middle East Eye reported a US-Israel plan to replace the Waqf (May 25, 2026); Amman calls it a red line.
- **Washington:** the current term ends Jan 20, 2029. The 22nd Amendment bars a third election; most scholars say the 12th Amendment also closes the vice-president route, though a minority disagree.
- **Watch list:** page 3, under "Watch: foreign authority."

WHAT KIND OF FIGURE?

- **He rises.** A "little horn" comes up among ten and uproots three (Dan 7:8, 24). Ten kings hand him their power (Rev 17:12-13). Today's established leaders fit the ten better than the one.
- **From the north.** Daniel frames the final campaign between the kings of the north and the south (11:40). In Antiochus's day the north was the Syrian kingdom; who fills that role at the end is debated.
- **The main theories:** a ruler from a revived Rome ("the people of the prince," Dan 9:26); a Jewish false messiah (Irenaeus, citing John 5:43); a Muslim leader (Joel Richardson); or a system rather than one man (the Reformers' papacy view; AI-surveillance versions today).
- **The record:** every name pinned in advance, from Napoleon to Hitler to many modern politicians, has been wrong. Watch the acts, not the man.

JIANG XUEQIN'S VIEW

- **Pax Judaica** (lecture, Dec 18, 2025): an Israel-centered world system of trade routes, AI surveillance and finance, run from Jerusalem with a rebuilt Temple.
- **His Antichrist** is a Jewish messiah who takes over that system, sets up a world government and the mark of the beast, then drives the world to attack Israel in the War of Gog (Persia and Russia).
- **His method** treats religions as scripts that powerful people act out. It forecasts human behavior, not what God will do.

HOW MUCH TO TRUST IT

- ☐ He says he was an atheist most of his life and is developing "a more gnostic framework." He teaches that Jesus founded Gnosticism, not Christianity.
- ☐ He styles himself "Professor" without a university post; a tracker counts 463 predictions, 22 resolved. His hidden-elite framing overlaps old conspiracy theories about Jews, though he says it is not about Jews.
- ☐ **Use him for Middle East power politics, not for what Scripture means.**
